STUDENTS

OVERALL SCHOOL RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall school rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. Please note that this rating is based mainly on high-stakes testing and, accordingly, doesn't represent a complete view of your school's performance. Other aspects of this report card are designed to put this rating in the proper context.

The U. S. Department of Education has given the State of Oregon approval to temporarily suspend the assignment of school ratings during the transition from the Oregon Assessment of Knowledge and Skills (OAKS) to the new college and career readiness assessments. Schools will not receive an overall school rating on this report card and will receive a new overall school rating on the 2015-16 school report cards.
